

## Project Design Phase-II

### Solution Architecture

Date	16 October 2023
Team ID	Team - 591022
Project Name	Project - Snack Squad
Maximum Marks	4 Marks

Frontend	The frontend of the programme will be in charge of presenting the user interface and handling user interactions. It will be implemented in java and xml and will be accessible from any device.
Backend	The app's backend will be in charge of processing orders and connecting with delivery services. It will be built with java and firebase.
Database	A database will be required for the app to hold data on users, snacks, orders, and delivery. This will be accomplished with the usage of Firebase.
